Fukuoka Disaster-Prevention Navi Mamoru-kun is helpful in these situations!

I am walking home after an earthquake. Is there anywhere to use tap water or a restroom?

A map will tell you right away!

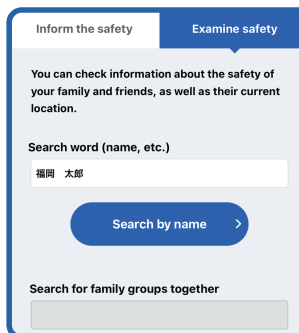

How much will this location shake in a big earthquake?

See seismic intensity forecasts and liquefaction predictions for each fault at a glance!

What should I be careful about when evacuating?

Learn from illustrations!

I want to know if my family is OK!

(Safety confirmation/check-ins)

Easily check if people have marked themselves as safe!
